TOKIO, May 2, 7 a.m. - [By Asiatic Cable.] A supplemental report from Gen. Kuroki covering Sunday's fighting says:

'The Russians made two stands. The enemy's strength included all of the Third Division, two regiments of the Sixth Division, one cavalry brigade, about forty quick-firing guns and eight machine guns. We have taken twenty-eight quick-firing guns, many rifles, much ammunition; more than twenty officers and many non-commissioned officers and men are prisoners. I am informed that Generals Zassalitch and Kashtalinsky were wounded. Our casualties number about seven hundred, and the Russian loss is more than eight hundred men."

> A. P. CORRESPONDENT'S STORY. [BY THE ASSOCIATED PRESS-P.M.]

TOKIO May 1, 7 p. m.-[By Asiatic Cable.] After five days of fighting, largely with artillery, the first Japanese army, under Gen. Kuroki, has forced a crossing of the Yalu River, and today, with a gallant infantry charge, covering a frontage of four miles, it drove the Russians from Chiu Tien Cheng and the heights on the right bank of the Iho, or Aigs River, which enters the Yalu from the north almost opposite Wiju. The Japanese turned the left flank of the Russian position, and in the battle of today they swept away the new front interposed by the Russians to check their onward movement.

The present position of the Japanese is a deminstrate Gen. Kuroki began the movement Tuesday by ordering a letachment of the Imperial Guards division to seize the island of Kurito, which is in the Yalu above Wijn, and a detachment of the Second Division to seize the island of Kintelto, which is situated below Wiju. The detachment of the Imperial Guards was met with some resistance in its operations, but it succeeded in clearing the enemy out and occupied Kurito Island. The Russians aban-doned the island of Kinteito when attacked by the detachment of the Second Division.

The actual losses sustained by the detachment of the Imperial Guards is not known, as there is an error in that part of the cipher message received here referring to the number of killed, but nine of the detschment were severely and sixteen were slightly wounded. The detachment of the Second Division which took the island of Kinteito sustained no losses.

RUSSIAN ARTILLERY FIRE

During these movements on the islands the Russians opened During these movements on the islands the Russians opened have been received here do not it cate whether the Russians reti mounted on the bank of the river at Kosan, where the Russians seem to have established their headquarters. One battery of Japanese artillery, which had taken a position on a hill to the east of Wiju, fired three volleys at Kosan and at noon of Tuesday, the Russian batteries behind Chiu Tien Cheng shelled Wiju, wounding one Japanese soldier with shrapnel. Wednesday, the Russians resumed the bombardment of Wiju, firing at intervals throughout the day. The Japanese artillery did not respond to this fire.

Gen. Kuroki has received reports to the effect that the Russians are fortifying the heights on the right bank of the Iho River. These new defences are declared to extend from Chiu Tien Cheng through the village of Makah to Koshoko, a distance of three and a quarter miles. The Russians resumed their bombardment Thursday, but it was generally ineffective.

Subsequently, Gen. Kuroki ordered two companies of the Imperial Guards to cross the Yalu and make a reconnoissance along the left bank of the Iho River for the purpose of discovering the character of the Russian fortifications along the heights on the right bank of the river. This Japanese force advanced toward Kosan, and then dispatched a small detachment to the village, where a party of Russians was encountered. In the engagement which followed five Russians were killed.

The Russians shelled the reconnoitering party from an em placement in the hills in the southeastern part of Yoshoko. This fire was without effect.

The Russian artillery on the hill behind Chiu Tien Cheng firing at a high angle, again opened on Wiju, the island of Kurito, and Scikodo, to the south of Wiju, where some Japanese batteries had taken position. This firing continued into Thursday night, and Gen. Kuroki reports that while it was ineffective, it disturbed his preparations for an attack. The Russians resumed the shelling of Wiju Friday, but the Japanese guns did not reply. PREPARATIONS FOR CROSSING.

The Twelfth Division of the Japanese army was chosen to make the first crossing of the Yalu. It began its preparations Friday by driving the Russians from their position on the bank of the river opposite Suikochin, which is eight miles above Wiju, and the point selected for the crossing. This division constructed a pontoon bridge over the river, and at 3 o'clock Saturday morning

it began crossing. The entire division passed over the river during the day, and by 6 o'clock Saturday evening it was in the position assigned to it for the battle of Sunday.

The movement of the Twelfth Japanese Division was covered by the Second Regiment of field artillery and another artillery regiment of heavy

At twenty minutes to 11 o'clock Saturday morning the Russian guns posted to the north and to the east of Chiu ed to the north and to the east of Chiu Tien Cheag began shelling the patrols of Japanese infantry which had been dispatched from Kinteito Island to Chukodai, another island north of Kinteito and under Chiu Tien Cheng. The Japanese batteries replied to this shelling and silenced the Russian fire. Later, eight Russian gups posted on a hill to the east of the village of Makao opened upon the Imperial Guards. To this shelling the Japanese artillery to the east of Wiju responded, and the Russians ceased firling.

Then both the Chiu Tien Cheng and Korean side of the river. The Russian guns fired for two hours before they were silenced. In his report, Gen. Kuroki expressed the belief that his shelling was very effective against the Parsians.

LOSSES SATURDAY.
The Japanese losses in the bomardments of Saturday were two men
filled and five officers and twenty-two killed and five officers and twenty-two men wounded. A flotilla of gunboats from the squadron of Admiral Hosoya participated in the fighting of Satur-day. It encountered a mixed force of Rassian infantry, cavalry and artillery on the Manchurian bank of the Yaiu, below Antung, and after a sharp fight

A bridge across the main stream, of the Yalu, Just above Wiju, was comted at 8 o'clock Saturday night, and Second Japanese Division and the the Second Japanese Division and the Imperial Guards Immediately began crossing. They advanced and occupied the hills back of Kosan, facing the Russian position on the right bank of the river. All through Saiurday night, regiment after regiment of Japanese soldiers poured across the hridge, and at a late hour Saiurday night, Gent Kurchi telegranded

klo concerning the losses sustained by the Japanese in the fighting of today. It is believed that these losses were heavy, particularly during the infantry

charge.

ST. PETERSBURG, May 2, 2,538 as m.—The first Japanese army under Gen. Kuroki, consisting of the Guards and the Second and Twelfth Divisiona, according to official and private advices from the front, crossed the Yalu yesterday, about thirty miles above the mouth of the river, near Klullents, where the river bends abruptly to the castward. For three days, less than 5000 Russians, under Generals Zassalitch, Mistchensko and Kashtalinsky, have been strung along the Maschurian side of the river, and have been harassing and impeding the crossing of the Japanese very successfully, despite their hopeless interiority in men and gaus.

Friday, the Japanese who had occupied the heights near Khussan and Titzaven, above Antung, were disloged and driven back to the river

WASHINGTON. May 1.—[Exclusive Dispatch.] The adjournment of Congress carried with it the death of the proposed General Staff for the navy. The staff plan was killed by its friends. During their efforts to convince Assistant Secretary Darling that it would be a good thing for the navy, they were asked to submit their reasons in writing. A few days later the following "reason" was submitted:

mitted:
"Axiom—The Navy Department should be so reorganized that a strong Secretary will do the most good and a weak Secretary will do the least harm, and when the Secretary is away, the department will be run as efficiently as though he were present."

This was accepted as proof of the claim that the creation of a General Staff would be to subordinate the civilian head of the department and turn it over to an oligarchy.

DR. HUGHES'S SERMON.

The First Methodist Episcopal Church was beautifully decorated yesterday morning in honor of the coming of the General Conference. On the platform with the pastor. Dr. McIntyre, sat Bishop C. C. McCabe and the preacher of the hour, Rev. Dr. Walt S. Hughes of Independence-avenue Methodist Episcopal Church. Kansas City. Though a young man of 60 he has filled three of the most important Methodist pulpits, and is now widely known as one of the most important Methodist pulpits, and is now widely known as one of the most eloquent preachers of the entire church. He fully sustained that reputation yesterday morning by his sermon on "The Reign of Christ," based on Revelations xi, 15. His opening pictured the Farliament of Religions at the World's Fair in Chicago as expressive of the desire of mankind to find one religion that would satisfy all nations and all needs. Its failure was due to lack of comparison between the "finished products" of the various systems. What can heathenism offer in bontrast with the blessings of Christian civilization? All that is best in other religions in precept and principle Christianity embraced but added motive and spirit. It also kept itself singularly free from such defects as slavery and polygamy and other evils that have cursed Mohammedanism and kindred religions. It was still further embodied in a personal Christ and thus became a living force rather than a dry formula. With all these elements it is little wonder that Christianity became a missionary religion and now seeks worldwide domain. Wherever it spreads it proves universal adaptations. A very touching illustration was interjected, describing the conversion of his brother, now president of De Pauw University, by the testimony of a Chinese girl at a College Christian Association meeting.

WHEN THE RUSH BEGAN.

According to the statements of the raiding officers, the scene when the rush for safety began was something worth witnessing. More than 100 men surrounded the twenty-foot ring in the brush, most of them having paid a dollar for the privilege of being there. When the signal shot was heard and the officers began trying to make arrests there was a rush for the brush, men leaving their coats, hats, collars where they lay, deserting their buggies, horses and automobiles. No one thought of taking the cocks out of the ring, and throughout the excitement following the raid the two bids continued fighting. Near the ring were found several birds which had been killed during previous fights, and in coops were a number of live birds, all of which, together with the abandoned rigs, were seized as evidence and brought to the city. The appearance of the squad of city detectives later flushed a number of sports from their hiding places in the brush and there was a second scattering.

It was stated last night that a score or more of nominal arrests were made, but only four prisoners were taken to the County Jail. They are Charles York, bartender at First and Wilmington streets; T. J. Harris, No. 901 Austin street; James Hunter and Louis Goutlah, addresses not given. Cash bail in the sum of 150 was demanded of each of these prisoners. The other persons whom the officers captured were released on their own recognitiance, although by what authority is doubtful, if the raid was made in good faith. Their names were taken and they were ordered to appear in court at 10 o'clock this morning. Afflorg those who were seen there by the officers in addition to the four prisoners were the notorious Bilderrain. "Kid" Crails, another gambles: Frank A. A CASE FOR CAUTION.

A Some days ago a dispatch was published in The Times, under a San Bernardino date, to the effect that Frank C. Prescott, who is chairman of the present holdover State Prison Committee of the Legislature, had received from the "life-sentenced-prisoners of California," a communication pleading for "clemency, justice and mercy." The communication bore the signature of J. W. Moore (No. 18,750,) who, it seems, is secretary of a permanent committee composed of life-termers, which was recently organized with the object of accuring "an amendment to Section No. 1500, making some given number of years, for good conduct and faithful service, as a limit of confinement for life-sentenced prisoners."

members.

The attention of business men is respectfully invited to the figures here given; other comment is unnecessary. For the week ending Saturday, April 30, 1964. The Times printed a total of 15,130 inches of paid advertising. During the same period its two morning contemporaries combined printed 12,635 inches. The two evening papers printed 9773 inches. Thus it will be noticed that The Times printed in a single week 2003 inches more advertising than the two other morning papers combined, and 5257 inches more than the two evening papers. This is the kind

eonduct and faithful service, as a limit of confinement for life-sentenced prisoners."

In the course of this remarkable appeal it is stated that "many of the life-termers were victims of circumstances, many have been tried and convicted during the existence of bit terness in the case, and have received unjust and unmerciful sentences, and many have been made desperate by persecutions which were beyond their power to withstand." It is further pointed out that the obstacles in the way of gaining elemency for life prisoners, through the exercise of the present parole law, are insurmountable, and therefore, elemency for life termers, "in the evening shadow of their lives," is earnestly besought. This is a case in which it is obviously the duty of Gen. Prescott and his Farst. If this announcement, which their lives," in the evening shadow of their lives," is earnestly besought. This is a case in which it is obvi-sualy the duty of Gen. Prescott and his Par East. If this announcement, which

was evidently delayed in transmission, had been made before instead of after the Czar's anti-mediation proclama-tion, it might have received more peri-ous consideration.

Mr. Bryan refuses to say whether or not he will boit the ticket in case the St. Louis nominee and platform do not suit him. The spectacle of Bryan thus brandishing a stuffed club over the head of Democracy is intensely

More than a week has passed since Mr. Bryan expressed himself concern-ing Judge Parker and the New York platform, but Parker obstinately per-uists in his refusal to withdraw his

of years" upon such sentences. A provision of this character would take from the life sentence a considerable portion of its publitive value, and would, in fact, be an absurd and needless curtailment of judicial power.

Offenders against the law are generally, from their own point of view, "victims of circumstances," of "unjust and unmerciful sentences," of "persecutions," etc. This plea has been a common resort of malefactors since the beginnings of recorded history. But clases of unjust punishment are comparatively rare, as a matter of fact, while the miscarriages of justice have become little less than a scandal. Legal technicalities and the law's delays have been invoked to such an artient that it has seemed mometimes as though our complicated legal machinery was designed to favor the escape of criminals from punishment for their crimes rather than to promote the ends of justice.

It is not to be dealed that in our court practice there have been instances of injustice. But such cases are tar less common than the mistaken elemency which has served in many instances to weaken our judical system and to defeat the purposes of justice. Prisoners are not given life sentences of his kind, decreed by the propose of the legislative power to mittate, by a sweeping legal enactment, sentences of this kind, decreed by the fact of the facts and the evidence. Purchamore, a life sentence is rarely allowed to stand as a finality until all legal supedients to have it set aside have been exhausted. The presumption of guilt in such cases is therefore yery strong.

That there are cases where clembrated to the facts and the evidence. Purchamore, a life sentence is rarely allowed to stand as a finality until all legal supedients to have it set aside have been exhausted. The presumption of guilt in such cases is therefore yery strong.

That there are to be any sable steeds cavoring around the St. Louis convention in somewhere in Illinois, looked to stand as a finality until all legal supedients to have it set aside have been exhau

within its scope, unless it can be shown beyond all question that it was based upon an error of fact, or a misconstruction of the law. There is too much undoing of the work of the courts, by the devious methods which sharp lawyers know so well, and too little regard for the plain intent of the law. Malefactors who are convicted and sentenced to life imprisonment, notwithstanding the many possible methods of defeating or perverting the ends of justice, should be presided to be guilty. There were many things in that ancient labor movement common also to the labor question of the present day. First, it was a conflict between the men who furnished the muscle and the men who furnished the money. This conflict has existed to some degree in all ages. There are certain conditions which make it sharp and bitter at times. The great need is for wise leadership in the critical hour. There have been but few great labor leaders in the world's history.

"The modern labor question, like that of old, calls for the wisest leadership. He who would be a leader in this must be a statesman of the broadest and most unselfish spirit. He must walk near to humanity and live near to God. He must hear the voice of justice speaking from every burning bush, and obedience to law thundering from every Sinai. When such leaders shall appear, and the people will follow them, instead of following so many blind guides of the blind, then the promised land of peace and prosperity will be in sight."

The best argument that we can use to convince you of the superiority of the kind of clothes sold here is to show you the clothes themselves. But we want you to look at them carefully, try them on, examine the workmanship, compare the styles, note the prices. Then if you are willing to stick to tailormade you want to spend money. EBELL AMATEURS IN PRETTY FRENCH PLAY

THIS afternoon will be given the annual French play by the French section of the Ebell Club. "Un Cercle des Femmes," as it is called, promises a spicy and enjoyable afternoon to those so fortunate as to be able to follow the language of sunny France, and if one cannot, why these talented members of the French sec-

tion are dramatic enough to compel

Mme. J. A. LeDoux takes the leading role, and though she does not belong to the section who are devoting their energies to the study of French, as that is her mother tongue, her histrionic ability and her perfection in the language makes this handsome Ebell lady fit preëminently the part she is kind enough to assume.

Mme. Barles, a handsome young widow, is Mme. LeDoux's role for this afternoon—a widow who is disgusted with men aind determines to form a woman's club which is supposed to be

ure pier had either turned turtle or broken loose, and at 2 o'clock the little gasoline launch turned turtle and in ten minutes went to the bottom prow first. The launch, the Tempest, came into this bay from San Diego soon after the Donohue was wrecked a few weeks ago. The Tempest had an eight-horse engine and was 25 feet in lien th. She was worth about \$1000, and belonged to William McDonald. If her anchors lo not give way she may be raised without great loss, providing her bow is not battered to pieces on the bottom of the sea.

without further waiting when she hove in sight.

It is reported that a high surf beat on the usually quiet strand of Avalon Bay during the day, and that one of the large glass bottom boats that attempted to make a trip over the submarine gardens was driven on the rocks, and was towed off by a rescuing launch only after an exciting experience.

"I have traveled thousands of miles by sea—crossed the Atlantic and the Pacific and some other stretches of water—but I never experienced such a shaking-up as I got on that trip today," said one of the drenched voyagers from the Hermosa last night.

RETAILERS AGAINST STANDARD WOODENWARE CO.

Wholesale House Has Been Fur-nishing Ice Boxes for the Fighting "Home Ice Company" to Give Away and Smaller Dealers Object. Letters Sent Broadcast.

To boycott the Standard Wooden-ware Company so that it may not sell any more toe chests or ice picks in all Southern California except to the Home Ice Company—such is the threat of the Retail Hardware Dealers' the Home Ice Company—such is the threat of the Retail Hardware Dealers' Association of this city. The Standard has been supplying refrigerators to the ice company, which has been seliting them at jobbing cost or even better, and which may possibly give refrigerators away if competition in the loc business continues to grow warmer. This caused the trouble between the Standard and the hardware merchants. One dealer on Spring street sent back forty-five ice boxes which had just been received on consignment from the woodenware house, canceled all orders and declared a boycott on the wholesaler. Letters have been sent throughout Southern California stating what the hardware men term the breach of faith of the Standard. "Tes, they are trying to boycott us," said Manager Weaver of the Standard Woodenware Company," but we are paying no attention to it, except that we keep that the free advertising we are getting out of the rumpus. We sell our refrigerators at wholesale only, and do not feel that we have the right to dictate to a customer what prices he shall be allowed to make on them. We can see no grounds for the boycott."

The hardware men claim that the

CITY LEAGUE GAMES. PANS SEE PAIR SPORT.

The opening of the City Baseball eague at Chutes Park yesterday was auspicious as far as spectators were concerned, but a bad one as to weather and baseball. A rain threatened half the time and a gale blew all the time, filling the players' eyes with dust, messing up the clothes of all who watched the sport and altogether making thims disagreeable in every way. No, with standing the unfavorable conditions almost 1000 people took a chance to see some baseball, and they had two games for the price of one. The contesting teams were the Modern Woodmen and the Hamburgers in the first game and the Owls and the Tufts-Lyons in the second. The Woodmen won their game by a score of 5 to 4 and the Owls beat the Tufts-Lyon team by 11 to 4.

Parts of the two games furnished fair baseball, and then again there was some bad acting. It all looked a little out of place after seeing professional ball for the past five weeks, but the players in the games yesterday are not professionals and are not expected to do as well as they might. Still the sport was sufficiently good to keep the crowd, and if the teams play as well in the future as they did yesterday the fans will go to see them act.

MINOR BASEBALL.

"Dummy" Hoy left last week for St.
Louis, accompanied by his wife and
child. After visiting the fair for several weeks they will go to their home
in Cincinnati. He states that he has
quit playing ball for good, but may
go back into the game some time. He
batted 350 last season and followed
Schwartz, Eagan, Cravath and Dillon
in two-base hits, having made fortytwo. While he was not the best base
runner in the league, he made more
runs than any other man in the league,
and was a valuable man in many ways.
About the only reason he did not play
on the Los Angeles team this season
was that Manager Morley did not care
to pay him the National League salary
he received last year.

TALKED ABOUT STARTER.

MEMPHIS (Tenn.) May 1 .- [Exclu MEMPHIS (Tenn.) May 1.—(Exclusive Dispatch.) It is reported in turf circles that Edward Corrigan has been fined \$500 for Areach of race-track discipline in 'accusing Starter William Murray of questionable methods. President Montgomery of the local club left for Chicago tonight, and it is probable an announcement will be made following the Western Jockey Club's meeting there.

TARGET PRACTICE. TURNERS HAVE STAR SHOOT.

The annual May Day picnic and star shoot of the Turnverein Germania was held yesterday at the new Schuetzen park northeast of the city. It was a fearful day for pionics and outdoor sports generally, but the Turners are not a class to be discussed by adverse conditions, and wentered the statement of the statemen

Turners are not a class to be dismayed by adverse conditions, and went ahead just the same and had their pleasure.

The principal event of the day, of course, in the sporting line was the annual star shoot of the Turners and after a hot competition the king prise was won by Chris Krempel. In this event eighteen merchandise prises were also offered and they were won by the fowwowing Marksmen: F. Jaeger, O. H. Westcott, Claude Black, Dr. M. E. Taber, E. Elaneri, A. Mass, John Von Breton, Joe Singer, Wm. Prick, Chris Krempel, G. L. Wolff, Hy. Pfirmann, F. Huebsch, Max Friese, John Hauerwass, August Wagniere, Hy. Glass.

CLASSIC RACES ARE IN SIGHT.

BROOKLYN HANDICAP TO BE RUN IN THREE WEEKS.

Three Other Big Events Will Fol-low Within the Succeeding Month. Horses That Raced at Accot are in American Derby and Long Prices are Offered Against Them.

Western horsemen and turf followers generally on the Pacific Coast are be-ginning to look with longing eyes to-ward the East, for within the next greatest stakes in America for run-ning horses. These are the brooklyn and Suburban handicaps, the World's Fair Handicap and the American Derby, having an aggregate value of 196,000.

Fair Handicap and the American Derby, having an aggregate value of \$56,000.

The first on the list is the Brooklyn Handicap to be run at the Brooklyn Jockey Club meeting, about May ½ and with a value of \$20,000. The next is thes Suburban Handicap to be run at Sheepshead Bay about June 16, and having a value of \$20,000. The third is the American Derby at Chicago, on June 18, with value of \$35,000, and the final event is the World's Fair Handicap, at St. Louis about June 25, with a value of \$50,000. All of these races are at one and one-half miles.

Coast turfmen are particularly interested in these races this year, for each one contains entries of horses that raced on the Coast the past winter. In the Brooklyn are Proper, Claude and Lord Badge; in the World's Fair Handicap, Deutschland, Don Domo, Rearcatcher and Byron Rose; in the Suburban are Proper, Claude and Pulsus, and in the Derby are Bill Curtis, Bearcatcher, Bombadier, Elwood, Felipe Lugo, Foremaster, Pulsus and Rian. These horses not only raced in San Francisco, but Bill Curtis, Elwood, Felipe Lugo, Foremaster and Rian were in a number of races at Ascot Park.

In the O'Leary future book made on the Derby, not much consideration is given the horses that raced at Ascot, if one may judge from the odds quoted against them. In the sheet of April 17, Bill Curtis is held at 20-8-4; Elwood at 60-25-12; Felipe Lugo and Rian at 100-40-20, and Foremaster at 40-15-6. P. Cook's English Lad is the favorite at \$-3-8 to b, and the noted Highball is 12, 5 and 5 to 2. Bill Curtis would probably be thought the most of by the local sports if they picked any that raced here, for many had an idea he was the best horse that ran at Ascot Park.

CLASS B MEN IMPROVE. CLASS B MEN IMPROVE.

The play in the Class B tournament seems to be improving in both team and individual work, and the sport is holding its own fairly well. The Santa Fe trio came through with the high game of 2713 for the past week and thereby moved into first place, taking the lead away from the Westerners. The other teams are still holding the same places.

the lead away from the Westerners. The other teams are still holding the same places.

Jacobs of the Commercial team leads the individuals with a high average of 181 29-30. This player has been severely criticised by some of the members of the other teams for playing in Class B tournaments when he has always played with Class-A teams heretofore. As a matter of fact, he never showed any Class-A form until he commenced to bowl in Class B. Carrasco, who is in second place. Is another bowler who has, on the contrary, always been thought a Class A man and yet the dope shows that he has never finished in any tournament with better than 169 average.

It is even so with many bowlers in this city who have Class-A reputation and bowl Class-B averages. Bowlers in this tournament need not be discouraged for if they plug along carsefully, they will be about as near top as some of those that have had more experience. Jimmy Newborn of the Sants. Fé team and Voris of Ocean Park are steadily increasing their averages, and at the wind-up will be found near the top if they continue to improve.

BIG EXCURSION

PLEASE REMEMBER THE DAY-

Wednesday, 11:30 a.m., May 4,'04

Special train leaves Arcade Depot for the IMPERIAL VALLEY, accompanied by the famous Catalina Marine Band from the time we leave Los Angeles until we return.

This will be a grand trip from the sultry city into

"Green Fields of Eden"

Long ago we used to sing "In the Green Fields of Eden," but never did we understand its full import until we visited the IMPERIAL VALLEY, in Southern California. The farmers down there are growing prosperous and rich, and the surrounding country is far ahead of the little embryonic city of

BRAWLEY, CALIFORNIA,

which is located on the Imperial branch of the Southern Pacific Railroad. REMEMBER! This special train is composed of vestibuled sleeping cars, a well-stocked dining-car, and the fare for the round trip, including sleeping car accommodations for three nights is only \$10, the full amount of which will be credited on the deferred payment of a lot at our auction sale at BRAWLEY on May 5th and 6th.

Never in the history of the world has there been such a modern "Valley of the Nile" as is presented in the Imperial Valley. Many of the people who attended our last excursion and auction sale at the town of Imperial, HAVE ALREADY MADE FROM 50 PER CENT. to 120 PER CENT. on their investment in town lots.

It is now proposed to give another auction sale of lots in the beautiful village of BRAWLEY, California. If you want a "jolly outing" and an opportunity to see this magnificent valley, get ready and accompany our special train of solid vestibuled sleeping cars Wednesday, May 4.

MAT DAY PICNICS.

There was a general exodus of picickers today to cafons and mountains
to celebrate May Day, and although
wild flowers are less abundant this
teason than usual, the merrymakers
unceeded in gathering quantities to
bedeck their carriages in keeping with
the spirit of the day. The County
Park, in the mouth of the Santiago

The gift of a school site for the new Pacific City school building has been accepted by the trustees of the district, and a building to cost \$500 is to be erected at once. The new census shows ninety-two children in the estrict.

The Baraca Bible class of the First Methodist Church entertained with a hay ride to Villa Park, where a stop was made at the schoolhouse and games played about a camp five.

Last night enough moisture fell to all the district and a building the company has been granted a divorce from Daniel G. Rogers, both of Barstow. During the hearing was made at the schoolhouse and games played about a camp five.

Last night enough moisture fell to all the dust. The season's total is now about six and one-half inches, sufficient to assure fair crops in almost all ranching industries. The little showers which have come with almost unfailing fegularity for several nights are doing snuch to conserve the moisture now in the ground, and will be of material benefit in keeping grass growing in mountain pastures.

The Sunset Telephone Company is preparing to rebuild all its Ventura lines, and when this is accomplished all ten-party and two-party lines will be done away with and subscribers will be given main lines and four-party lines. The company is making new contracts and transferring all its old. Main-line 'phones, for which subscribers have been heretofore taxed 4 a month, will be furnished for \$3, while the old ten-party line rate of \$1.25 a month will bot with the four-party line. One refreshing feature in the rebuilding is that all poles and lines will be removed from Main street. The block and cable system will be installed and will be strung in the rear of the buildings.

NEW LUMBER TARD.

The San Pedro, Los Angeles and Salt Lake Railrond has served notice upon those persons occupying the land between the Terminal Island Pavillon and the inner harbor to vacate. It is the intention of the Salt Lake company to lease this land to the Whiting Wrecking and Lumber Company of Los Angeles, which corporation will establish a large wholesale yard and a planing mill on the property. Ground has already been broken for this purpose. The new yard will give employment to about 160 men, and will add materially to the business of the port.

TITLE DISPUTED.

It is stated by some of the people occupying the land desired that they will not vacate without a struggie, claiming that the Salt Lake seople have not a good title to the land. The Salt Lake claims the land in direct descent from a Mexican grant, and those persons occupying it have been given leases by the company, however, without compensation. NEW LUMBER TARD.

SHIP DECLARED "UNFAIR."

As a mark of respect all business will be suspended in Covina Monday from 10 a.m. to 12 m., the hour of the funeral.

The ball game played on the State school grounds Saturday by Compton by a score of 6 to 9. This was the final game of the Athletic League. The championship will be decided by the championship will be the purpose of looking into the matter of ebst, location and site for a City Hall met last night, and without dissent, advocated a new building. A mass meeting was called for Monday night in order to get the public's sentiment in regard to the proposition.

Patrick Mullane, an employe of the Californis Construction Company, suffered the loss of the forefinger of his right hand yesterday afternoon while at work on the outer breakwater.

The members of the four groves of the United Ancient Order of Druids came here today in a special train to install the officers of San Pedro Grove, No. 161.

Hans Gericke, one of the crew of the British bark Cleomene, was severely injured yesterday afternoon while employed painting the side of the ship. One of the crew let slip an oar, which descended on Sallor Hans, striking him in the face, breaking his nose and fracturing his inw.

On account of the largely-increased ahippings in this harbor, Government Inspectors Eglehart and Badillo have received orders to remain at this port. ton has won more actual games than sither, although both Los Angelea teams have a higher score by reason of winning games by default. HARVESTING CABBAGES. The harvesting of the Whittier cabbage crop is now being packed at Evergreen packing-house, this season's output being of very good quality. Among the larger growers of the vegetable are Asa Douglas, Baldwin Bros., Curtis Jackson and Issac Mann, whose crops combine to make nearly afface.

Street Superintendent Butman has been having a very hard week's work on South Painter avenue, where the grading of the street has necessitated the relaying of the large water main. At the corner of Penn street the new grade requires a cut of seven feet, and as it happens that the formation is a hard shale at this point, the work has been slow and difficult.

LOCAL BREVITIES.

Among the appointments made at the LOCAL BREVITIES.

Among the appointments made at the City Council meeting last week was that of Maj. Madison T. Owens as City Attorney. The terms of Mrs. A. C. Clark and Messrs. G. W. Monroe and G. E. Little as members of the library board having expired, they were reelected without opposition.

L. C. Newby and bride, formerly Miss Bells Yount of West Militon, O. who have been visiting here for a few days, left on Thursday for San Diego county, where the groom is superintendent of a mining company.

A very charming reception was tendered to the elderly ladies of the city on Wednesday afternoon by the members of the Woman's Club. The affair took place at the Baptiet Church.

The Home Makers' Club has elected officers for this coming year as follows: President, Mrs. Philena B. Hadley vice-president, Mrs. Mattle Gregg: treasurer, Mrs. Anna Starbuck.

McConnell & Miller, who have recently come here from Indiana, have purchased the Whittler laundry from O. P. Blackburn.

N. B. Hutchinson, a retired capitalist from Jackson, Mich., and Mrs. Hutchinson, left today for their eastern home.

ge Noises in Roof at Old San Ga dission Frighton Parish ioners at Mass.

There was almost a panic yesterday morning in the old mission at San Gabriel, caused by unusual noises in the roof of that ancient edifice during the celebration of the last mass.

With the idea that the old building had begun to crumble away, either because of the force of the high winds or from its age, the congregation was almost in a state of panic, and many rushed from the doors.

Thoughts of the destruction of the old San Juan Capistrano Mission by earthquake flitted across the minds of the worshipers, and they remembered that this destructive affair occurred during the celebration of the mass, and that many were killed in the fall of the roof and walls.

As the ominous sounds continued, people roce from their knees, and quite a number rushed out of the building and gathered on the walk in front of the main portal to await results.

At the same time an electric car-

front of the main portal to await results.

At the same time an electric carcame thundering up beside the old building, and its noise added to the confusion. Rev. H. S. G'Reilly, the pastor, acted very coolly in the matter, and coming down from the sanctuary calmed the people, and requested those gathered at the door to either resume their places in the church or to depart. He then returned to the altar, and proceeded with the ceremonies of May Day, and the solemn services continued without further interruption.

Infimediately after the services a thorough examination of the walls was made, and they were found perfectly safe and sound. Then the cause of the mysterious sounds was discovered. Cats had made their way into the state of the cause all the trouble.

benefit of one of the Catholic schools there.

Tomorrow morning Bishop Conaty will start with archbishop Riordan for Washington, D. C., where they will look after the interests of the Pius Fund and other church affairs. During their sojourn in Washington they will have an interview with President Rooseveit on matters connected with the Indian schools of the Pacific Coast.

Yesterday, before Bishop Conaty's departure, he announced the following changes of clergy: Rev. M. L. Hennessy of the Cathedral parish to be the rector of the new parish of Bt. Clements', at Ocean Park, where a handsome church has just been completed; Rev. Thomas F. Fahey of the Plaza Church to be assistant in the Cathedral parish; Rev. T. J. Sayers of Salinas to be assistant at the Church of Our Lady of Angels; Rev. Father Warner to the chaplainey of the Indian School at Old Mission, Ban Diego.
